

you said we did

Discuss the changes with Personal Independence Payments (PIP) and Connect to Work at the agenda planning meeting

- The agenda planning group decided to focus on money matter as it is the time of year when bills go up

- We also ask the welfare rights team to update on PIP

- They said changes to PIP were put on hold. The government needs to talk with disability organisations and charities before making any changes.

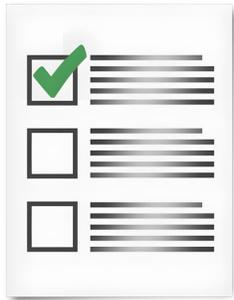

- The welfare rights team are waiting for more information so cannot update any more at the moment

CONNECT TO WORK
Funded by **UK Government**

- Connect to work is still on the list of agenda topics. We will invite them to a future meeting.

Feedback from Councillor Wright will be sent around after meeting.

- This was completed

- If anyone has any questions or comments please contact louise.roberts@camden.gov.uk

CLDS and libraries update

CLDS and the libraries team did meet and made a plan to do the following:

- Improved signs and reviews of library spaces to make visits easier and more welcoming for people with learning disabilities

- Developing 'Find Out About Your Library' tours

- Getting more easy read and audio book stock

- Starting new activities for people with learning disabilities that could be held in library spaces.
